PERSONAL PROJECTS

Connect People & Communication Management System (04/2023 - 06/2023)
- A Connect People and Communication Management System is a software solution that is designed to help students communicate with other departments of the student body.
- The platform aims to provide a space for users to connect, share ideas and experiences, and engage with content related to their interests.
- Additionally, the platform offers users various features that enhance their experience, including the ability to create and join groups, participate in discussions, and share content.

VoltBooking Management System (08/2023 - 01/2024)
- VoltBooking is a pioneering project aimed at improving the electric vehicle (EV) charging experience through a dedicated reservation system. With the exponential growth in EV ownership, the necessity for efficient charging solutions has become critical. This project focuses on simplifying the charging process by allowing users to reserve charging slots at nearby stations in advance
- The project is designed to prioritize user convenience, ensuring a seamless and hassle-free charging experience.
- Streamlined Charging Process: The primary goal is to eliminate the uncertainty and inconvenience of finding available charging stations by enabling users to reserve slots ahead of time. Efficiency Enhancement: By promoting advanced reservations, the project aims to optimize station usage, reduce congestion, and minimize wait times at charging stations.

WORK EXPERIENCE

Web developer intern
Collins it solutions
02/2024 - 04/2024

SKILLS

`C` `My sql` `Core java` `MS Office` `HTML/CSS` `Nodejs` `Python`
